NOTICE REGARDING REMITTENCE TO PAYPHONE SERVICE PROVIDERS

The Telecommunications Act of 1996, Federal Communications Commission (FCC) Order 96-128, previously required in FCC rules, outlined in 47 CFR Part 64 Subpart M, Completing Carriers must remit compensation, to Payphone Service Providers (PSP) and provide a quarterly report of all completed payphone calls.

This notification clarifies that the ICN is no longer a facility based long distance carrier, nor a switch-based reseller (Completing Carrier) and no longer the responsible party to compensate Payphone Service Providers for coinless and subscriber toll-free calls.

Should any Payphone Service Provider believe they are warranted payment for use of their payphone, it is suggested they contact the long-distance company or the party originating the call to seek reimbursement.

Respectfully,

Brian Clayton
ICN Contracting
