REMOTE CONNECTIVITY  
FOR EDUCATION

ICN's Hotspot reseller service provides a mobile hotspot device for schools to help close the homework gap and support remote learning. This service option is available to all authorized public and private schools, from K-12 to colleges and universities through our partnership with AT&T.

## HOTSPOT

### AN INVESTMENT IN THE FUTURE OF EDUCATION

Having access to affordable high-speed Internet service and devices is needed for successful learning outcomes.

Our Hotspot service requires a 12-month service contract, and is available to our education users that migrate existing AT&T lines or activate new lines for students or teachers.

This service includes a Moxee™ mobile hotspot and unlimited data with a 12-month contract and activation fee.

#### Service Disclaimers:

- Hotspot service is dependent on AT&T wireless coverage and the landscape terrain. Ability to stream, video resolution, and other data usage (including speed) are not guaranteed, may vary, and may be affected by other factors.
- Hotspot Internet connectivity is unfiltered by the ICN.
- ICN's security services are not integrated into the Hotspot service, and customer privacy is not protected.

For pricing and additional details, contact your ICN Account Consultant.
