STRONG SCALABILITY

FLEXIBLE COVERAGE

FAST ACCESS

Wireless LAN

MANAGED INTERNAL BROADBAND SERVICE

Our Managed Wireless LAN (Local Area Netwok) Service provides a scalable wireless solution for increased mobility and improved end user connectivity. When your organization is free from network cables and cords, collaboration can happen seamlessly without losing the connection.

 ICN's Managed Service Provider

BlueAlly helps clients scale, optimize, and manage their IT resources to reach their business goals. Their expertise ranges from Infrastructure Rationalization, Service Management, and Technology Strategy.

A SCALABLE, STABLE ALL-INCLUSIVE WIRELESS SOLUTION

Our Managed Wireless LAN offers a holistic approach to your network infrastructure. Let ICN and our partner, BlueAlly, assist in reducing the time and effort required for network diagnostics, troubleshooting, and day-to-day networking tasks.

Scalable Solution
Offering a variety of service levels based on the number of the wireless access points required for coverage.

Flexible Network Coverage
Using Wi-Fi, move around freely within the area of the network with laptops, handheld devices, etc.

Improve Manageability and Minimize Disruption
Providing proactive monitoring and alerts so any problem can be quickly resolved.

Guest Access
Providing the ability for a secure wireless connection for customers, partners, or the public.

E-Rate Category 2 Eligible
Service is E-Rate Category 2 eligible under the USAC Schools and Libraries Program.
