- Provide the name of the building, address and floor number where the work will be performed.
- Provide site contact information.
Quick Guide

How To: Create a New Contact Responsibility (New Record)

Portal access is no longer restricted to those who have authority to purchase.

Authorized signatories can setup user roles and responsibilities for their account.

Check the box to assign a new user the appropriate role.

Note: If you check the box Agency Authorization, an individual should be able to certify that funding is available for the services requested.

How To: Request to Associate an Existing ICN Contact to Another Account

To request to be associated to a second account, or to add someone who is already registered to an account to a second account, the Account Association form can be used. ICN will assist in setting up the proper relationship and permissions.

Users for each account can:

- Create new customer cases.
- Access Customer Contact Management (Agency Authorization check box must be selected).
- Order services for the Account (Agency Authorization check box must be selected).
